Register: This event is closed for registration

The Ireland Virtual Expo is a B2B trade event, organised by Tourism Ireland to allow the industry from across Ireland, as well as tour operators based in North America, to connect with more than 1,500 high-end travel advisors based across the United States and Canada.

Industry will showcase their product and services to North American travel advisors with focus on luxury, sustainability, culinary, authentic Irish experiences, music and outdoor soft adventure.

Tourism Ireland will facilitate, via an online system, a series of one-to-one, pre-scheduled video appointments. The virtual event will also include a trade show and webinar.
